

Are you an ICT user?

Learn how to use your COMPUTER in an efficient way

If we make a responsible use of ICT, we will reduce their carbon footprint

Turn off the display when you are not using it

Reduce the screen brightness

Unplug external devices (USB, memory card, etc.) when you are not using them anymore

Avoid opening many programmes at the same time

Do not leave the DVD inside the reader

Do not place the computer near cold or heat sources

To learn more, have a look at the full document "Guía de Buenas Prácticas" (Good Practices Guidelines) in our website
